

Safe-Flex

FLOOR SYSTEM

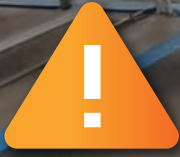

Premium. Flexible. Safe.

MSC

AN **ergo**advantage inc BRAND

Accidents and fatigue cost organizations an average of **\$1000 per employee**, per year

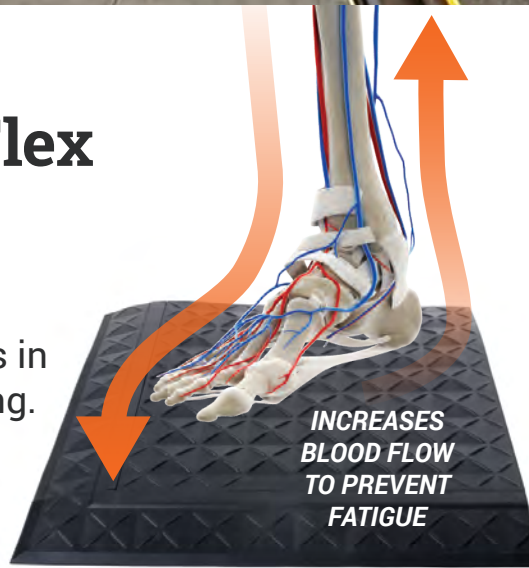

We provide **Premium Flexible floor solutions** to enhance the **Safety of your work environment.**

WE HAVE

Compression Flex Technology

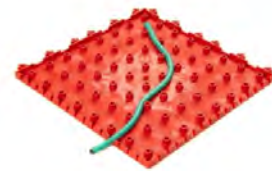

Effective energy return developed by professionals in ergonomics and engineering.

- Surface compresses slightly then returns to its original position
- Helps to prevent pain from standing, fatigue, old injuries and varicose veins
- Domes are designed to cause imperceptible muscle contractions that increase blood flow

LEGS

Patented structure disperses weight evenly throughout the tile decreasing strain and helping prevent injury.

CORD PROTECTION

All options are made with a special leg channel design to protect cords and allow them to run under the tiles.

WE ARE

Premium.

The Safe-Flex Floor System provides the best anti-fatigue industrial flooring available today.

Flexible.

Floors are customizable. Tiles come formulated or surfaced for a variety of needs, with patented lug connectors.

Safe.

No other system has as many safety features and benefits. For us, safety means mitigation of hazards, and prevention of injury and fatigue.

The Safe-Flex Floor System is a premium, flexible and safe modular industrial flooring solution that solves challenges faced by many organizations. The patented Compression Flex construction provides the industry's top anti-fatigue support. The floor system can be custom fit or purchased in ready-made standard kits. The anti-slip varieties work in wet or even oily environments, and bevelled edges ensure that workplace slips, trips and falls are greatly reduced. The ESD and anti-microbial options provide additional environmental control. All matting options are impervious to most chemicals and are class 1 fire resistant. Tiles are sustainably produced using recycled materials and feature world class connection lugs that will last beyond the competition's. A Safe-Flex Floor System works as hard as you do to protect your most important asset—your employees.
