

ONE TRULY ERGONOMIC TECHNOLOGY

Compression Flex Technology™ allows our matting to rely on a synergy between our patented, engineered design and premium materials to reduce both pain and accidents at work.

Here is how it works:

⚠ CAUTION

Anyone can market their product as an "anti-fatigue" mat. Choose wisely!

"There must be enough instability to encourage small postural changes that facilitate increased blood flow to and from working muscles, but not so much that it requires excessive muscular activity that might accelerate fatigue."

WRITTEN BY ALLAN SHELLY IN *BEST PRACTICES: ERGONOMIC STANDING SURFACES FOR WORKERS*, FEATURED IN THE JUNE 2005 ISSUE OF THE OHS NEWSLETTER.
